2ND EDITION OF INTERNATIONAL

HEART CONGRESS

"HEART: Holistic Efforts in Advancing Research and Treatment for Cardiovascular Well-being."

Our SCIENTIFIC COMMITTEE

GUSTAVO KNOP Mayo Clinic, United Stat

MICHAEL E MERHIGE State University of NY at Buffa United States

NARANJAN S. DHALLA St. Boniface General Hospital Research Centre, Canada

TIMOTHY F CHRISTIAN

Albert Einstein College of

Medicine, United States

SHUPING ZHONG Keck School of Medicine,

SYED RAZA Leighton Hospital, United Kingdom

MEKHMAN N MAMEDOV National Research Center For Preventive Medicine,

TOMOKO KATO

Scientific TOPICS

- Cardiovascular Diseases and Disorders
- Echocardiography, Cardiac CT and MRI
- · Heart Failure and Myocardial infarction
- Neurology and Cardiology
- Cardiovascular Pharmacology
- Pediatric and Congenital Cardiovascular Disease
- Cardiac Nursing: Acute and Chronic Cardiac Care
- · Hypertension and Obesity
- Circulation: Arrhythmia and Electrophysiology

- Womens Cardiovascular Health: Cardiac Problems during Pregnancy
- Cardio-Oncology and Nuclear Cardiology
- Molecular and Cellular Cardiology
- Lipidology
- Preventive Cardiology
- Cardiovascular Imaging and Image Analysis
- Arteriosclerosis, Thrombosis and Vascular Biology
- Clinical Case Reports on Cardiology

Hybrid Event

Keynote Presentations	
Yong Xiao Wang Albany Medical College, United States	Title: Novel signaling pathways and therapeutic options for pulmonary hypertension
Michael E Merhige State University of NY at Buffalo, United States	Title: Managing total chronic coronary occlusion: Noninvasive External Counterpulsation (ECP) induces collaterogenesis, relieving ischemia, as demonstrated by quantitative PET myocardial perfusion imaging: ECP is a cost-effective alternative to high risk PCI
Roger H Coletti Interventional Health. PA, United States	Title: Effects of impaired microcirculation in the musculoskeletal system
Thomas J Webster Interstellar Therapeutics, United States	Title: Cardio nanomedicine: Fighting plaque, opening arteries, and healing hearts
Pedro A Jose The George Washington University of School of Medicine & Health Sciences, United States	Title: Dopamine D2 receptor and inverse salt sensitivity
Naranjan S. Dhalla St. Boniface General Hospital Research Centre, Canada	Title: Rationale for the prevention or therapy of sudden cardiac death in heart failure
John R Doty Intermountain Medical Center, United States	Title: Aortic root replacement
Ahdy W Helmy Indiana University School of Medicine, United States	Title: Metabolic dysfunction spilling over to the heart
Dipak P Ramji Cardiff University, United Kingdom	Title: How do nutraceuticals protect against heart disease?
Syed Raza Awali Hospital, Bahrain	Title: Precision medicine for a personalized care in dyslipidaemia
Sergey Suchkov Institute for Biotech & Global Health of RosBiotech and A.I. Evdokimov MGMSU, Russian Federation	Title: Personalized and Precision Medicine (PPM) as a unique healthcare model to be set up through biodesign-inspired and biotech-driven translational applications and cardiology-related marketing to secure the human healthcare and biosafety
Mekhman Mamedov National Research Center for Therapy and Preventive Medicine, Russian Federation	Title: Updated recommendations for the management of patients with diabetes mellitus and cardiovascular diseases
Miroslav Radenkovic University of Belgrade, Serbia	Title: Clinical pharmacology of sotagliflozin – Novel quality in treatment of heart failure

Oral Presentations	
Blake I Gardner Intermountain Health, United States	Title: The cardiovascular hospitalist, a paradigm shift: Impact of specialty hospitalists on clinical, financial, and operational care delivery in a large us health care institution (Intermountain Health)
Tahmineh Azizi University of Wisconsin, United States	Title: Application of wavelet leader based analysis to model the heart's electrical activity
James V Cireddu Case Western University, United States	Title: VPexam in heart failure innovating virtual cardiac care
Elizabeth C. Ghandakly Cleveland Clinic Foundation, United States	Title: Comparative policies in preventative cardiology across the world
Ayisha Zaka Bashir Department of Cardiology, University of Nebraska Medical Center and Children's Hospital and Medical Center, Omaha, Nebraska, United States	Title: The benefits of assistive devices and physical activity in cardiac and geriatric patients with peripheral artery disease
Prabode Weebadde Purdue University, United States	Title: Estimation of blood pressure using machine learning/ artificial intelligence
Lusine Harutyunyan Adventist Health, United States	Title: Multidisciplinary approach to cardiovascular patient
Cristina Milagre Quadros Borges HCOR- Hospital do Coracao de Sao Paulo, Brazil	Title: Harm reduction in smoking: What does the scientific evidence say?
Vahid Serpooshan Emory University and Georgia Tech, United States	Title: Modeling human heart development and congenital disease using an iPSC-based 3D bioprinted model of embryonic human heart
Aryan Gajjar University of California, United States	Title: When should patients with atrial fibrillation start anticoagulation after an acute ischemic stroke?
Qazi Naeem ur Rehman Wirral University Teaching Hospital, United Kingdom	Title: IV Iron in heart failure -A quality improvement project (QIP)
Helen Senderovich Baycrest, Canada	Title: Integration of palliative care for patients with Congestive Heart Failure (CHF)
Catherine Le Universite de Montreal, Canada	Title: The anti-atherosclerotic agent MPE-298 mediates mitochondrial oxidative stress through trafficking of the cluster of differentiation 36 (CD36) receptor in macrophages
Moacyr Nobre Hospital das Clínicas da Faculdade de Medicina da Universidade de São Paulo, Brazil	Title: Patient adherence to ischemic heart disease treatment

Joao Rafael Rocha Da Silva Connect Life Rehabilitation and Performance	Title:Factors that impact adherence to physical exercise in individuals with chronic pain
Ylber Jani Macedonia, The Former Yugoslav Republic of	Title: Use of C-reactive protein for prediction of sinus rhythm maintenance after pharmacologic cardioversion in patients with Metabolic Syndrome
Iris Panagiota Efthymiou University of East London, United Kingdom	Title: Bridging economics and behavior for cardiovascular wellness
Marc Bisnaire Cardio-Phoenix Ltd, United Kingdom	Title: Reduced time-to-diagnosis and time-to-treatment for patients presenting with dyspnea or shortness of breath through use of AI-driven cardiac diagnostics for use at point-of-care.
Vikram Jitendra Aberdeen Royal Infirmary, United kingdom	Title: Sutureless aortic valve replacement
Corey Tabit University of Chicago, United States	Title 1: The effects of local violent crime on cardiovascular disease and risk factors Title 2: Standardization of cardiovascular care using clinical pathways- a practical approach to implementing clinical
Asma Syed Brookdale Hospital Medical Center -OBH, United States	guidelines and evidence-based medicine Title: Keeping people in rhythm electronically: An overview of cardiac rhythm management devices
Daniel Lichtenstein Ambroise Pare Hospital, France	Title: THE BLUE-protocol. Diagnosing hemodynamiv pulmonary edema using lung ultrasound
Momna Sajjad Raja University of Leicester, United Kingdom	Title: Impact of biological aging on adverse outcomes following major surgery (rehospitalization or death)
Fernanda de Souza Nogueira Sardinha Mendes Oswaldo Cruz Foundation, Brazil	Title: Chagas cardiomyopathy – Doeschagas disease still exists?
Paraskevi Theofilou General Hospital of Thoracic Diseases SOTIRIA, Greece	Title: Heart failure patients: Measuring the effectiveness of a rehabilitation program in relation to physical and mental fatigue, general health and anxiety
Merab Beraia Todua Clinic, Georgia	Title: Erythrocytes and information distribution in the human body
Maria Borrell Sant Pau Institute for Biomedical Research (IIB-Sant Pau), Spain	Title: PCSK9 inhibitors beyond cholesterol regulation
Eesha Wahid Trinity College Dublin, Ireland	Title: An update on optimisation of cardiovascular health in pregnancy

Surekha Tony Mevada Sultan Qaboos University Hospital, Oman	Title: Cardio-protective effect of regular transfusion in children with Non-Transfusion Dependent Thalassemia (NTDT): A cohort study
Bodour Rajab Umm Al-Qura University, Saudi Arabia	Title: Hypertrophic cardiomyopathy in Saudi Arabia: A systematic review of the epidemiological, clinical, and imaging features
Erwin M Miranda Dr. Paulino J. Garcia Memorial Research and Medical Center, Philippines	Title: Clinicodemographic and left ventricular ejection fraction profile of breast cancer patients treated with trastuzumab in a tertiary government hospital
Sergey Suchkov Institute for Biotech & Global Health of RosBiotech and A.I. Evdokimov MGMSU, Russian Federation	Title: Antibodies with functionality as a new generation of translational tools designed to monitor autoimmune myocarditis at clinical and subclinical stages
Marina A Chichkova Federal State Budgetary Institution, Russian Federation	Title: Acute myocardial infarction as a complication of acute myocarditis against the background of coronavirus infection Covid-19
Valery Boukarim Amosov National Institute of Cardiovascular Surgery, Ukraine	Title: Arch plasty of left atrium for moderate dilatation of left atrium during mv's correction: Is it necessary?
Valery Boukarim Amosov National Institute of Cardiovascular Surgery, Ukraine	Title: Triangular plasty of left atrium for atriomegaly during mitral valve correction: Is it neccesary?
Olexandr Bolshak Amosov National Institute of Cardiovascular Surgery, Ukraine	Title: Mitral stenoses complicated by massive thromboses of left atrium
Olexandr Bolshak Amosov National Institute of Cardiovascular Surgery, Ukraine	Title: Wrap or not to wrap of ascending aorta during surgical treatment of its poststenotic aneurysms is it the better option?
Oleksii Hurtovenko Amosov National Institute of Cardiovascular Surgery, Ukraine	Title: Myocardial protection for combined mitral-aortic-tricuspid valve correction: is retrograde applying of cardioplegia is better?
Oleksii Hurtovenko Amosov National Institute of Cardiovascular Surgery, Ukraine	Title: Pre-and postcondition of coronary artery and myocardium for combined mitral-aortic-tricuspid valve correction
Volodymyr Popov Amosov National Institute of Cardiovascular Surgery, Ukraine	Title: Reconstruction of left part of the heart for combined mitral-aortic-tricuspid valve diseases
Volodymyr Popov Amosov National Institute of Cardiovascular Surgery, Ukraine	Title: Mitral-aortic-tricuspid valve correction in CPB complicated with small cavity of left ventricle
Fatih Mehmet Ucar Demiroglu Bilim University Hospital, Turkey	Title: Refractory axillary venous spasm during permanent pacemaker implantation due to vein wall hematoma

Fatih Mehmet Ucar Demiroglu Bilim University Hospital, Turkey	Title: Bilateral Subclavian Crush Syndrome After Pacemaker Implantation
Wael Shamsi Basha Istanbul Medipol University, Turkey	Title: Enhancing surgical outcomes in infants with ductal- dependent pulmonary blood flow
Ajay Anil Bagalkot Aarupadai Veedu Medical College and Hospital, Pondicherry, India	Title: Unlocking mysteries: MINOCA's unexpected faces
Rupam Sarkar Maharashtra University Of Health Sciences (MUHS), India	Title: The effect of cardiac rehabilitation on exercise tolerance and quality of life in patients with Coronary Artery Bypass Grafting (CABG) in out patient phase
Rajesh subramanian The Tamilnadu Dr.MGR Medical University, India	Title: Case series study of Coronary artery anomalies in a tertiary care centre hospital
Vivek Vaibhav Rama Medical College	Title: Anaesthetic management of a patient with dilated cardiomyopathy posted for hernioplasty
Nidhish Niranjan Nisty Nisty Heart Centre, India	Title: The clinical profile of myocardial bridge, a study of 25 cases from India
T Rajini Samuel Sri Balaji Vidyapeeth, India	Title: Unlocking the cardiac vector theory and einthoven equilateral triangle model: A paradigm shift or a major transition in ECG interpretation?
Arulanandhan Ettiyan The Tamilnadu Dr. MGR Medical University, India	Title: A cross sectional study on correlation between lead AVR positive finding in ECG of acute myocardial infarction patients with coronary angiographic findings admitted in tertiary care centre
Jamuna Rani Ayyalu Sree Balaji Medical College And Hospitals, India	Title: Efficacy of yoga as a health promotion lifestyle method to reduce stress among medical students - A cross sectional study in the scope of preventive cardiology
Xueying Tian Fudan University, China	Title: Coronary vessel formation in development and regeneration: Origins and mechanisms
Xin Li Chinese PLA General Hospital-Sixth Medical Center, China	Title: Preliminary research of the application of resting myocardial contrast echocardiography multi-indicator combined diagnostic model in coronary heart disease
Zuowei Pei Central Hospital of Dalian University of Technology, China	Title: Downregulation of CACNA2D1 protein is the key event involved in reducing hypertension-induced myocardial injury in exercised mice
Mengyi Liu Chinese Academy of Medical Sciences, China	Title: Association between transthoracic echocardiography monitoring indicators and the incidence of postoperative acute kidney injury in coronary artery bypass grafting
Zhongchen Li Fuwai Hospital, China	Title: The synergistic effect of the triglyceride-glucose index and lipoprotein(a) on the prediction of major adverse cardiovascular events after coronary artery bypass grafting

Zhongchen Li Fuwai Hospital, China	Title: Triglyceride-glucose index is associated with poor prognosis in patients with stable coronary artery disease undergoing coronary artery bypass grafting
Mengyi Liu Chinese Academy of Medical Sciences, China	Title: Preoperative transthoracic echocardiography to predict postoperative atrial fibrillation following coronary artery bypass grafting
Xi Chen Peking University Third Hospital, China	Title: Parkin promotes Mic60 ubiquitination to exacerbate myocardial ischemia-reperfusion injury by inducing mitochondrial dysfunction
Yin Xiaoyang Beijing University of Chinese Medicine, China	Title: Exploring the pathological connection and clinical management of hyperuricemia and atherosclerosis: A literature review-based investigation
Zhanneng yang China	Title: MiR-411-5p promotes vascular smooth muscle cell phenotype switch by inhibiting expression of calmodulin regulated spectrin-associated protein-1
Yadi Liu Beijing University of Chinese Medicine, China	Title: Hyperuric acid is involved in the progression of adriamycin cardiotoxicity
Jian Wang Beijing Geriatric Hospital, China	Title: Preventive effect of moderate altitude on non-culprit lesion progression in patients with acute myocardial infarction
Abdul Ghafoor French medical institute for mother and children, Afghanistan	Title: Echocardiography guided Percutaneous pfo closure with degradable device
Samia Barbouch Charles Nicolle Hospital, Tunisia	Title: Ambulatory blood pressure monitoring in patients with diabetic nephropathy
Samir Morcos Rafla Alexandria University, Egypt	Title: Management of arrhythmias in pregnancy
Prima Abdillah Akbar Airlangga University, Indonesia	Title: Outcomes of Fenestrated Versus Non-Fenestrated in Fontan Procedure: A Systemic Review and Meta-Analysis
Yasser Mohammed Hassanain Elsayed Egyptian Ministry Of Health, Egypt	Title: Graded phenomenon (Yasser's phenomenon): A novel electrocardiographic phenomenon change the arrhythmia directory; retrospective-observational study; research article in cardiology
Susy Kotit Aswan heart centre, Egypt	Title: Rheumatic heart disease in the 21st century: Challenges and opportunities
Yeganeh Mobasser MUMS, Iran (Islamic Republic of)	Title: Effect of discontinuation Av cigarette in hypertension management
Motahareh Ghodrati Qom university of medical sciences, Iran (Islamic Republic of)	Title: Biomaterial modification technology for blood compatibility with oxygenators used in CPB and ECMO

Kambiz Keshavarz Yasuj University of Medical Siences, Iran (Islamic Republic of)	Title: Early post-operative arrhythmias and their risk factors after total repair of tetralogy of fallot in pediatric patients
Asma Ayadi Tunisian Center for Nuclear Sciences and Technology, Tunisia	Title: The potential of Machine learning to predict the arterial stiffness from hemodynamics and biomechanics parameters

Oral Presentation slots are available

Poster Presentations	
Grace Qiu Thomas Jefferson University, United States	Title: Does conduction system pacing preserve left ventricular ejection fraction and prevent the development of dyssynchronous cardiomyopathy?
Faizah Albalawi Cardiff University, United Kingdom	Title: Anti-atherogenic actions of punicalagin and its metabolites
Arsalan Anees The University of Sydney, Australia	Title: Echocardiographic changes post parathyroidectomy in patient with primary hyperparathyroidism: A meta-analysis
Dae Wook Lee Novartis, Korea, Republic of	Title: Innovative strategies in cardiovascular medicine: Enhancing spearhead excellence of new molecular entities
Yanmin Xu Tian Jin Medical University, China	Title: Compaired sacubitril/valsartan with benalapril on the left ventricular remordeling of AMI after PPCI : A case-control study
Shenghan Zhong Chongqing Kanghua Zhonglian Cardiovascular Hospital, China	Title: Investigating the therapeutic efficacy, safety, and long- term impact of sacubitril valsartan in treating hypertrophic cardiomyopathy
Jahanara Arzu Bangabandhu Sheikh Mujib Medical University, Bangladesh	Title: Correlation between B line in lung ultrasound and plasma NT-proBNP level in patients with acute heart failure
Narges Mazloomi Mazandaran University of Medical Sciences, Iran (Islamic Republic of)	Title: Production of ACE-I inhibitory and antioxidant peptides resistant to gastrointestinal digestion from orange seed protein by Pepsin enzyme

Poster Presentation slots are available
